SWISS CERTIFICATE

 Mit Strassenzulassung für die Schweiz  
 Con l'omologazione stradale per la Svizzera  
 Avec autorisation suisse pour la route

**APPROVALS** EXPERT REPORTS FOR STREET USE

Fahrzeugumrüstungen sind zumeist eintragungspflichtig! Die Verantwortung für Fahrzeugumbauten trägt der Fahrzeughalter.  
Für strassenzugelassene Produkte sind Eignungserklärungen oder DTC Gutachten erforderlich!

**Keine Eintragung in Fahrzeugpapiere erforderlich:**  
**OEasa 2a** Übereinstimmungserklärungen gemäss ASA Richtlinie 2a für Felgen und Sportauspuffanlagen.  
**asa** ASA Prüfberichte für Felgen.

**DTC GUTACHTEN**

- Felgen: Zur Verwendung von Felgen aller Marken!
- Distanzscheiben: Auch für über 2% Spurverbreiterung und bis 40% Leistungsteigerung!
- Fahrwerke: Für über 40 mm Tieferlegung und spezielle Produkte.

*Le modifiche dei veicoli sono per lo più soggette a registrazione! La responsabilità delle modifiche del veicolo è del proprietario del veicolo stesso.  
Le dichiarazioni di idoneità o i certificati DTC sono necessari per i prodotti omologati su strada!*

**Esclusi dall'obbligo di registrazione:**  
**OEasa 2a** Le dichiarazioni di conformità OE secondo la linea guida ASA 2a per cerchi e sistemi di scarico sportivi.  
**asa** I rapporti di prova ASA.

**CERTIFICATO DTC**

- Cerchi: per l'uso di cerchi di tutte le marche!
- Distanziali: anche per distanziali superiori al 2% e aumentare le prestazioni fino al 40%!
- Sospensioni: anche per abbassare di oltre 40 mm e prodotti speciali.

Les modifications de véhicules sont la plupart du temps soumises à un contrôle technique! La responsabilité des transformations du véhicule incombe au propriétaire du véhicule.  
Pour les produits homologués pour la route, des déclarations d'aptitudes ou des expertises DTC sont nécessaires !

**Exclus de l'obligation au contrôle technique:**  
**OEasa 2a** Déclarations de conformité OE selon la directive 2a de l'ASA pour les jantes et les systèmes d'échappement sport.  
**asa** Rapports d'essai ASA.

**DTC GUTACHTEN**

- Jantes : Pour l'utilisation de jantes de toutes marques.
- Disques élargisseurs de voie: aussi pour élargissement de plus de 2% et jusqu'à 40% d'augmentation de tolérance.
- Suspensions : Pour un abaissement de plus de 40 mm et des produits spéciaux.

**INQUIRIES · ORDERS** REQUIRED INFORMATION FROM THE CUSTOMER

**ALURÄDER**  
Typengenehmigungs-Nr. erforderlich!  
Vor Reifenmontage je eine Felge vorn und hinten montieren!

**DISTANZSCHEIBEN**  
Typengenehmigungs-Nr. erforderlich!  
Angaben zu Radschrauben (Kegel- oder Kugelbund, Gewindelänge), Felgengrösse und Einpresstiefe

**SPORTFEDERN, SPORT- UND GEWINDEFahrWERKE**  
Typengenehmigungs-Nr. erforderlich!  
Vor Umbau die Fahrzeughöhe messen! Angaben zur Tieferlegungen können fahrzeugspezifisch variieren!

**SPORTAUSPUFF**  
Typengenehmigungs-Nr. (und Motor-Nr.) erforderlich!

**Wichtig!** Keine Rücknahme montierter Produkte!

**CERCHI IN IEGA LEGGERA**  
N. di omologazione richiesto!  
Prima di montare gli pneumatici, montare un cerchio all'anteriore e uno al posteriore!

**DISCHI DISTANZIATORI**  
N. di omologazione richiesto!  
Informazioni sui bulloni della ruota (sede conica o sferica, lunghezza della filettatura), dimensioni del cerchio e offset

**MOLLE SPORTIVE, SOSPENSIONI SPORTIVE E COILOVER**  
N. di omologazione richiesto!  
Misurare l'altezza del veicolo prima della conversione! Le specifiche di abbassamento possono variare a seconda del veicolo!

**AGGIORNAMENTO SPORTIVO**  
N. di omologazione richiesto (e il numero di motore)!

**Importante!** Non è possibile restituire i prodotti montati!

**JANTES ALUMINIUM**  
Reception par type nécessaire !  
Avant le montage des pneus, tester une jante à l'avant et une à l'arrière !

**DISQUES ELARGISSEURS**  
Reception par type nécessaire !  
Indication des vis de roue (cônique ou sphérique, longueur de filetage), de la taille de la jante et du déport.

**RESSORTS DE SUSPENSION SPORT, SUSPENSIONS COMPLETE SPORTIVE ET FILETÉS**  
N° d'homologation nécessaire!  
Mesurer la hauteur du véhicule avant la transformation ! Les indications concernant l'abaissement peuvent varier en fonction du véhicule !

**LIGNES D'ÉCHAPPEMENT SPORT**  
Réception par type (et de moteur) nécessaires!

**Important !** Aucune reprise sur produits montés !

## DIFFERENT DESIGNS FOR VEHICLE-SPECIFIC INDIVIDUAL OPTICS

**FRONT / REAR DESIGN** Felgenmodell in verschiedenen Ausführungen und/oder Dimensionen für Vorder- und Hinterachse kombinierbar.

**WHEEL DESIGN CONSTRUCTION** Verschiedene Felgenstern-/bett Konstruktionen eines Felgenmodells für's technisch maximal Machbare und die beste Optik! Unterschiedlich konkave Speichen und/oder tiefe Felgenbetten. Kombinierbar für Vorder- und Hinterachse. Spielraum für Fahrzeuge mit grossen Bremsanlagen.

**FRONT / REAR DESIGN** Cerchi in lega con caratteristiche differenti per l'asse anteriore in combinazione con l'asse posteriore.

**WHEEL DESIGN CONSTRUCTION** Diverse costruzioni della parte frontale del cerchio per ottenere la massima concavità tecnica e il miglior look! Diverse razze concave e/o canali del cerchio profondi. Combinabile per l'asse anteriore e posteriore. Possibilità di utilizzo per veicoli con impianti frenanti di grandi dimensioni.

**FRONT / REAR DESIGN** Jantes avec caractéristiques différentes pour l'axe avant en combinaison avec l'axe arrière.

**WHEEL DESIGN CONSTRUCTION** Différentes constructions par modèle de jante pour un maximum d'aspect concave techniquement réalisable et pour le meilleur aspect visuel! Différents rayons concaves et/ou canal de jantes profonds. Combinable pour l'essieu avant et arrière. Marge de manœuvre pour les véhicules dotés de grands systèmes de freinage.

## PRODUCTION PROCESSES & SUITABILITY CONSTRUCTION VARIANTS & USES

**FLOW FORM** Flowforming Leichtbautechnologie. Durch Materialumformung und -verdichtung sind Teile der Leichtmetallfelge in geringerer Wandstärke bei gleichzeitig höchster Festigkeit herstellbar.

**FORGED** Geschmiedete Leichtbautechnologie. Technisch aufwändiges Verfahren zum Erzielen extrem hoher Festigkeit und deutlich reduziertem Felgengewicht. Haltbarkeit, geringere Kratzeranfälligkeit und bessere Reparierbarkeit einer Schmiedefelge rechtfertigen den hohen Anschaffungspreis.

**2-PC/3-PC** 2- oder 3-teilig (reparierbar) verschraubt oder verschweisst.

**RACING WHEELS** Rennsporterprobte Felgenkonstruktionen auch in Verwendung mit Slicks.

**OFFROAD · VAN WHEELS** Stabile Felgenkonstruktionen für schwere Offroader, Transporter, Vans mit 5/6-Loch Befestigung.

**WINTER FIT** \* Wintergeeignete Produktausführung.

**RDKS READY** Alle Felgenmodelle mit Reifendrucksensoren kompatibel.

**FLOW FORM** Tecnologia leggera di flowforming. Grazie alla compressione del materiale, è possibile produrre parti del cerchio in lega leggera con uno spessore di canale ridotto.

**FORGED** Tecnologia leggera forgiata. Processo tecnicamente complesso per ottenere una resistenza estremamente elevata e un peso del cerchio significativamente ridotto. La durata, la minore predisposizione ai graffi e la migliore riparabilità di un cerchio forgiato giustificano l'elevato prezzo di acquisto.

**2-PC/3-PC** 2 o 3 pezzi avvitati (riparabili) e/o saldati.

**RACING WHEELS** Cerchi in lega specifiche per la competizione anche in combinazione con pneumatici da gara.

**OFFROAD · VAN WHEELS** Cerchi ad alta resistenza per fuoristrada pesanti, furgoni, furgoncini con montaggio a 5/6 fori.

**WINTER FIT** \* Ideale anche per l'utilizzo invernale del prodotto.

**RDKS READY** Tutti i cerchi compatibili con i sensori di pressione.

**FLOW FORM** Technologie de construction légère Flowforming. Grâce à la déformation et à la compression, il est possible de fabriquer des parties de la jante en alliage léger avec une épaisseur de paroi réduite.

**FORGED** Technique de construction légère forgée. Technique complexe permettant d'atteindre résistance extrêmement élevée et un poids de jante nettement réduit. La durabilité, la faible sensibilité aux rayures et la meilleure réparabilité d'une jante forgée justifient son prix d'achat élevé.

**2-PC/3-PC** 2 ou 3 pièces vissées (réparables) ou/et soudées.

**RACING WHEELS** Jantes pour la compétition aussi en combinaison avec pneumatique de course.

**OFFROAD · VAN WHEELS** Jantes très résistante pour les véhicules tout-terrain lourds, les camionnettes, les monospaces avec fixation 5/6 trous.

**WINTER FIT** \* Utilisation approprié même pendant l'hiver.

**RDKS READY** Toutes les jantes compatibles avec valves capteurs de pression.

## COLORS AND VISUALLY PERSONALIZED FOR DIFFERENT OPTICS

**COLOR PERSONALIZED** Verschiedenfarbige Ausführungen direkt ab Werk mit Herstellergarantie.

**COLOR SPECIAL EFFECT** Veredelung mit speziellen Farbeffekten.

**REFLEX COLORS** Finish mit unterschiedlichen Reflexionen je nach Lichteinfall.

**LASER WRITING** Mittels Laser angebrachte Grafik auf Speiche, Sujet nach Vorlage des Käufers.

**SPRING INDIVIDUALIZATION** Individuelle Federfarbe und Beschriftung.

**COLOR PERSONALIZED** Personalizzabile con diversi colori direttamente dal produttore con garanzia di fabbrica.

**COLOR SPECIAL EFFECT** Finitura con effetti cromatici speciali.

**REFLEX COLORS** Finitura con riflessi differenti in base all'illuminazione.

**LASER WRITING** Grafica applicata con il laser alla rizza, soggetto secondo il disegno dell'acquirente.

**SPRING INDIVIDUALIZATION** Colore e scritte individuali della molla.

**COLOR PERSONALIZED** Personalisable en différents coloris directement depuis l'usine, avec garantie du fabricant.

**COLOR SPECIAL EFFECT** Finition avec effet spéciaux de couleur.

**REFLEX COLORS** Finition avec différents reflets en fonction de l'éclairage.

**LASER WRITING** Graphique appliqué par laser sur le rayon, selon demande de l'acquéreur.

**SPRING INDIVIDUALIZATION** Couleur et inscription individuelle.

OE asa 2a or ASA for different vehicle models

**Für maximale Effizienz von Elektro- und Hybridfahrzeugen entwickelte Leichtbaufelge**

- Weniger rotierende Masse dank des Leichtgewichts (FlowForm Technologie)
- Geringerer Luftwiderstand durch weniger Luftverwirbelungen im Rad (Aerodynamik Einsätze)
- Senkt den Energieverbrauch und erhöht die Reichweite
- Abnehmbare Aerodynamik Einsätze (lackierfähig)

**Ruota leggera in alluminio sviluppata per la massima efficienza dei veicoli elettrici e ibridi**

- Minore massa rotante grazie al peso ridotto (tecnologia flowforming)
- Minore resistenza all'aria grazie alla minore turbolenza dell'aria nella ruota (inserti aerodinamici)
- Riduce il consumo di energia e aumenta l'autonomia
- Inserti aerodinamici rimovibili (verniciabili)

**Jante légère développée pour une efficacité maximale des véhicules électriques et hybrides**

- Moins de masse en rotation grâce à la légèreté (technologie flowforming)
- Moins de résistance à l'air grâce à la réduction des turbulences d'air dans la roue (inserts aérodynamiques)
- Réduit la consommation d'énergie et augmente l'autonomie
- Inserts aérodynamiques amovibles (peuvent être peints)

## BBS UNLIMITED DIMENSIONS

Basic Räder in zahlreichen Größen (18-21"), Breiten (8-12") und Konkavitäten – individuell kombinierbar für Vorder- und Hinterachse.

*Ruote di base in numerose misure (18-21"), larghezze (8-12") e concavità – combinabili singolarmente per l'asse anteriore e posteriore.*

Roues Basic dans de nombreuses tailles (18-21"), largeurs (8-12") et concavités – à combiner individuellement pour l'essieu avant et arrière.

## BBS UNLIMITED FIT DE ASA 2A FOR DIFFERENT CARS

Das mit jedem UNLIMITED Basic Leichtmetallrad montagebereite Nabenadaptersystem mit unterschiedlichen Lochkreisen (5x100-130) und Breiten ermöglicht nahezu jede gewünschte Einpresstiefe – und deren Änderung auch im Nachhinein.

Das ergibt eine zuvor nie dagewesene Anwendungsvielfalt und zahlreiche Kombinationsmöglichkeiten.

*Il sistema di adattatori per mozzi con diversi cerchi di bulloni (5x100-130) e larghezze, che può essere montato con ogni ruota in lega UNLIMITED Basic, consente di ottenere quasi tutti gli offset desiderati e di modificarli anche successivamente.*

*Il risultato è una varietà di applicazioni senza precedenti e numerose opzioni di combinazione.*

Le système d'adaptateur de moyeu avec différents cercles de boulons (5x100-130) et largeurs, qui peut être monté avec chaque roue en alliage UNLIMITED Basic, permet pratiquement n'importe quel déport souhaité et sa modification même après.

Il en résulte une variété d'applications sans précédent et de nombreuses possibilités de combinaison.

## BBS UNLIMITED STYLE

Vielfältige Individualisierungsmöglichkeiten: Felgenreife, Anfahrerschutz, Nabendeckel, Ventilcappe oder Titan-Radschrauben.

*Ampia gamma di opzioni di personalizzazione: Colore del cerchio, anello di protezione del cerchio, tappo del mozzo, tappo della valvola o bulloni della ruota in titanio.*

Large éventail d'options de personnalisation : Couleur de la jante, anneau de protection de la jante, capuchon de moyeu, capuchon de valve ou boulons de roue en titane.

## BBS UNLIMITED VALUE

Die Investition lohnt sich! BBS Räder überzeugen seit jeher durch Qualität und damit verbundene Wertstabilität. Durch Austausch des UNLIMITED FIT Kits nun auch fürs nächste Fahrzeug weiterverwendbar.

*L'investimento ripaga! Le ruote BBS hanno sempre impressionato per la loro qualità e la stabilità del valore associato. Con la sostituzione del kit UNLIMITED FIT ora anche per il prossimo veicolo è ulteriormente utilizzabile.*

L'investissement est rentable ! Les roues BBS ont toujours impressionné par leur qualité et la stabilité de la valeur associée. En remplaçant le kit FIT UNLIMITED maintenant aussi pour le prochain véhicule plus utilisable.

### EVOCORSE SANREMOCORSE 16"-18"

The successful range of alloy wheels realized for tarmac rally. Designed to resist heavy loads while maintaining the necessary lightness. The rim contour allows the installation of largest brake callipers, up to the WRC measures, while the design of lips facilitates the mounting of hard tires.

For road use, the steel inserts may be absent to allow more flexible use of standard nuts or bolts, without changing the assembly characteristics.

NON-Standard Red, Orange, Yellow, Green, Blue, Pink + 60.-

**FORMULACORSE 13"**

**EVOCORSE X3MA FORGED 18"-22"**

Made of a special aircraft alloy and machined from a forged block, in order ensure the best performance in the weight/strength ratio. Available in 2 versions:

For large brakes: flat profile with spokes extending into the rim.

For maximum track widths: deep outer lips, short spoke profile, extreme offsets.

Diameter range also 20"-22". Produced on special order (min. 8 pieces).

White

SIZE	PCD	ET	WEIGHT	CHF
8.0-13.0x18	4x98 - 5x130	min / max*	8-10 kg	on request
8.0-12.5x19	4x98 - 5x130	min / max*	9-11 kg	on request

Aluminum alloy A356-T6. Steel inserts: taper (60°, 90°) or flat included.

Use: **RALLY TARMAC - HILL CLIMBING - TRACK - CIRCUIT - GT - ROAD**

\* min and max ET depend on each measure

**Options <sup>2</sup>**

Anthracite, Bronze, Gold, Matt or Shiny Black, Silver + 20.-  
NON-Standard Red, Orange, Yellow, Green, Blue, Pink + 60.-

### EVOCORSE DAKARCORSE 16"

Constructed for heavy off-road – in all competitions, in the most extreme locations – and desert driving. Lips and rim contour are optimized for mounting off-road tires, even with low inflation pressure. Also for heaviest vehicles (>1500 kg per wheel). Complies FIA T1 / FIA T2 with minimum weight of 13 kg.

Fits for JEEP, LANDROVER, MITSUBISHI, NISSAN, SUBARU, TOYOTA, VW White

SIZE	PCD	ET	WEIGHT	CHF
7.0x16	4x98 - 6x165	25 - 48	11.0-13.5 kg	450.-

Aluminum alloy A356-T6. Steel inserts: taper (60°) included.

Use: RALLY RAID - OFF-ROAD - also ROAD

#### Options <sup>2</sup>

Anthracite, Bronze, Gold, Matt or Shiny Black, Silver + 20.-  
 NON-Standard Red, Orange, Yellow, Green, Blue, Pink + 60.-

### EVOCORSE DAKARSUPERZERO 17"

The new model DAKARSUPERZERO is in the same revised 18" line, however designed for extreme heavy duty use: **Load Index 2000 kg!** The wide hump profile allows use of tires with a low inflation pressure. Powder coating in three layers provides wear resistance higher.

Extra large dimensions for heavy vehicles, especially American models.

White

SIZE	PCD	ET	WEIGHT	CHF
8.5x17	5x98 - 8x165	-15 - 35	10.0-18.5 kg	495.-
9.0x17	5x98 - 8x165	-8 - 42	10.0-18.5 kg	500.-

Aluminum alloy A356-T6. Steel inserts: taper (60°) included.

Use: RALLY RAID - OFF-ROAD (extreme heavy duty) - also ROAD

#### Options <sup>2</sup>

Anthracite, Bronze, Gold, Matt or Shiny Black, Silver + 20.-  
 NON-Standard Red, Orange, Yellow, Green, Blue, Pink + 60.-

### EVOCORSE DAKARZERO 14"-18"

The low offset version of DAKARCORSE.

The spokes internal to the tire edge protect the mechanical parts from stone chippings and sand. The wide hump profile allows use of tires with a low inflation pressure. Powder coating in three layers provides wear resistance higher.

DAKARZERO 15"-18" can be machined for any application.

### POWERTECH DAX SPACERS 6 MM PUSH-THROUGH SYSTEM 2-PART WITH CENTERING

Angetzte Mittenzentrierung für exakte Zentrierung von Felgen mit 66.6, 72.6, 74.1 mm (5x98 - 120) und 73.1 mm Mittenlochbohrung (5x98 - 115). Die Felgenbefestigung erfolgt mit längeren Radschrauben oder Schafmuttern (alternativ längeren Radstehbolzen) abhängig von Felgentyp (Kegel- oder Kugelbund) und Schraubenlänge. **EXTRA**

*Foro centrale di set per l'esatto centraggio dei cerchi con cerchio da 66.6, 72.6, 74.1 mm (5x98 - 120) e foro centrale da 73.1 mm (5x98 - 115). I cerchi sono fissati con bulloni ruota o dadi a gambo più lunghi (in alternativa, perni ruota più lunghi) a seconda del tipo di cerchio (a collare conico o sferico) e della lunghezza del bullone. **EXTRA***

Centrage central rapporté pour un centrage exact des jantes avec un perçage central de 66.6, 72.6, 74.1 mm (5x98 - 120) et 73.1 mm (5x98 - 115). La fixation de la jante s'effectue à l'aide de vis de roue plus longues ou d'écrous à tige (ou de goujons de roue plus longs) en fonction du type de jante (conique ou sphérique) et de la longueur des vis. **EXTRA**

### POWERTECH DZ AND DZX+ WITH STEEL BUSHING FOR EXTENDED WHEEL HUB CENTERING

Innovative Entwicklung zur Verwendung von schmalen Distanzscheiben auf Fahrzeugen mit zu geringer Original Nabenhöhe. Das DZ Classic Set beinhaltet zwei Scheiben (5 - 15 mm) und zwei Stahlbuchsen zum Einpressen – DZX+ (5 - 10 mm) wird ergänzt durch den Composite Adapter. **EXTRA** Für die Montage der Felge sind längere Radschrauben erforderlich. **EXTRA**

*Sviluppo innovativo per l'utilizzo di distanziali stretti su veicoli con altezza del mozzo originale troppo bassa. Il set DZ Classic comprende due dischi (5 - 15 mm) e due boccole in acciaio per il montaggio a pressione. DZX+ (5 - 10 mm) è completato dall'adattatore composito. **EXTRA** Per il montaggio dei cerchi è necessaria bulloneria più lunga. **EXTRA***

Développement innovant pour l'utilisation de rondelles d'écartement étroites sur les véhicules avec une hauteur de moyeu originale trop faible. Le kit DZ Classic comprend deux rondelles (5 - 15 mm) et deux douilles en acier à enfoncer. DZX+ (5 - 10 mm) est complété par l'adaptateur composite. **EXTRA** Pour le montage de la roue, des vis plus longues sont nécessaires. **EXTRA**

DZX+

### POWERTECH EASY FIT SPACER KITS

Maximale Spurverbreiterung für beide Achsen eines Fahrzeugs mit serienmäßigen Rad-/Reifenkombinationen. Garantiert genügend Freigängigkeit. Derzeit für ausgewählte Fahrzeuge verfügbar als AZX oder DZX System inklusive Befestigungsmaterial. **EXTRA**

*Allargamento massimo della carreggiata per entrambi gli assi di un veicolo con combinazioni standard di ruote e pneumatici. Garantisce una distanza sufficiente. Attualmente è disponibile per veicoli selezionati come sistema AZX o DZX, compresa la minuteria di montaggio. **EXTRA***

Elargissement maximal de la voie pour les deux essieux d'un véhicule avec des combinaisons roues/pneus de série. Garantit un dégagement suffisant. Actuellement disponible pour certains véhicules en tant que système AZX ou DZX, matériel de fixation inclus. **EXTRA**

EASY FIT

### POWERTECH FIXING MATERIAL

#### Long wheels bolts **EXTRA**

Für Classic und DZX Durchstecksysteme.  
Ersetzen die serienmäßigen Schrauben zur Befestigung von Felge mit Distanzscheibe auf der Radnabe.

*Per i sistemi a foro passante Classic e Adapter. Bulloni o dadi di fissaggio a testa corta per il fissaggio del cerchio con il distanziale sul mozzo della ruota.*

Pour les systèmes traversants Classic et Adaptateur.  
Remplace les vis de série pour la fixation de la jante avec rondelle d'écartement sur le moyeu de la roue.

#### Spacer fixing bolts / nuts **EXTRA**

Für Classic und AZX Anschraubsysteme.  
Kurzkopf Befestigungsschrauben bzw. Mutter zur Befestigung der Distanzscheibe auf der Radnabe.

*Per i sistemi imbullonati Classic e Adapter. Bulloni o dadi di fissaggio a testa corta per il fissaggio del disco distanziatore sul mozzo della ruota.*

Pour les systèmes à visser Classic et Adaptateur.  
Vis de fixation à tête courte ou écrous pour la fixation de la rondelle d'écartement sur le moyeu de roue.

### POWERTECH SPECIAL FIXING MATERIAL

#### AZX double-threaded bolts **EXTRA**

Für Adapter Anschraubsysteme.  
Innovative Doppelgewinde-Einschraubbolzen mit Mikroverkapselung zur Befestigung der Felge auf der Distanzscheibe. **Optional** zur Umrüstung von Radschrauben auf Radstehbolzen.

*Per sistemi con adattatore imbullonato. Innovative borchie a doppia filettatura con micro-incapsulamento per il fissaggio del cerchio al distanziale. **Opzionale** per la conversione dei bulloni ruota in perni ruota.*

Pour les adaptateurs Systèmes de vissage.  
Boulons à visser innovants à double filetage avec micro-encapsulation pour la fixation de la jante sur l'entretoise.  
**En option** pour convertir les boulons de roue en goujons de roue.

#### Classic / DZX shaft nuts **EXTRA**

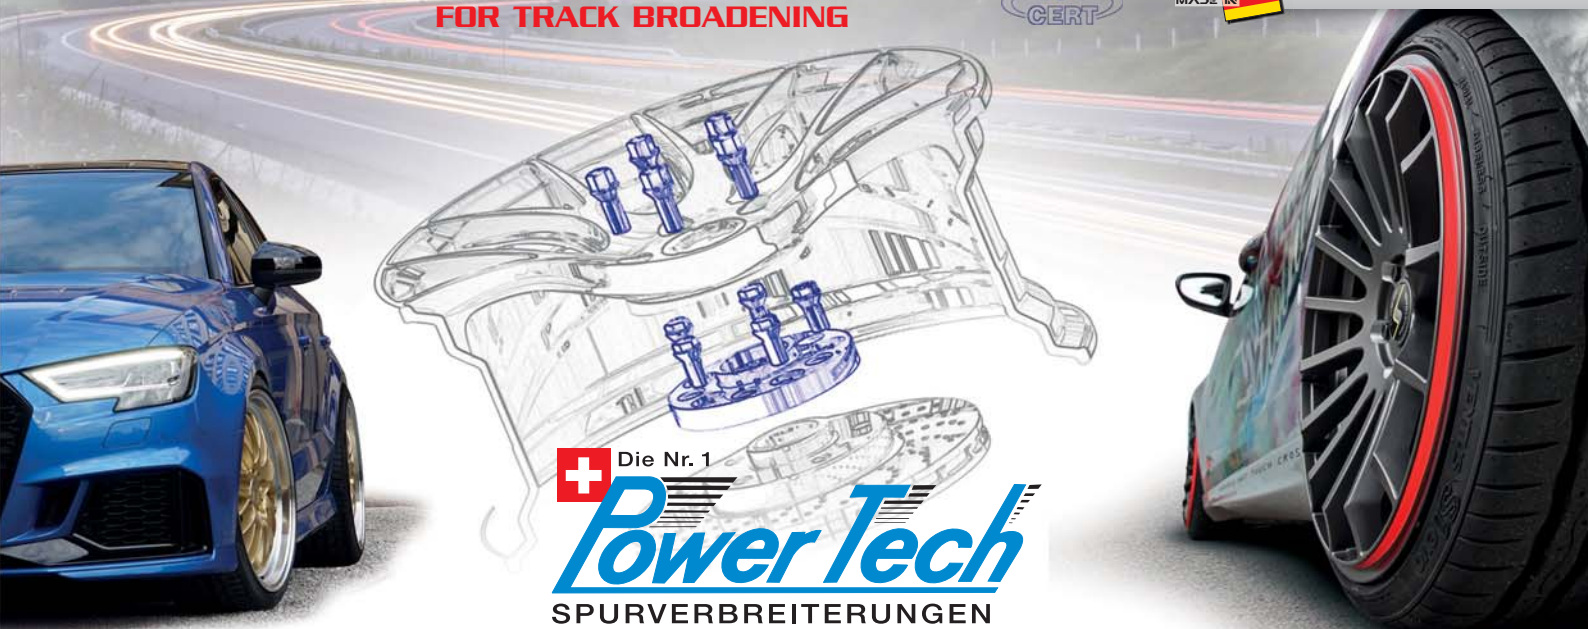

Für Classic und DZX Durchstecksysteme.  
Innovative Schafmuttern zur Verwendung von Durchstecksystemen an Fahrzeugen mit Radstehbolzen ohne den Austausch gegen längere Radstehbolzen.

*Per sistemi Classic e DZX con viti passanti. Dadi con gambo innovativo per l'utilizzo di sistemi a bullone passante su veicoli con perni ruota senza sostituirli con perni ruota più lunghi.*

Pour les systèmes Classic et DZX avec vis traversantes.  
Écrous à tige innovants pour l'utilisation de systèmes traversants sur les véhicules équipés de goujons de roue sans remplacement par des goujons de roue plus longs.

Die Nr. 1  
**PowerTech**  
SPURVERBREITERUNGEN

**POWERTECH WHEEL SPACERS FOR TRACK BROADENING**

SWISS CERTIFICATE

**Sportliche Optik und Steigerung der Fahrdynamik!**

Mit POWERTECH Distanzscheiben – zwischen Radnabe und Felge montiert – entsteht der Eindruck einer breiteren Felge. Das Rad füllt das Radhaus besser aus und die Fahrzeugspur wird verbreitert.

Bei Verwendung anderer Felgen zum Ausgleich der ET, mehr Freigängigkeit (grosse Bremssättel) oder zur Umrüstung von Radschrauben auf Radstehbolzen oder umgekehrt (System AZX). Spurverbreiterungen sind in zwei Montageausführungen erhältlich – als sogenannte Anschraub- oder Durchstecksysteme (A steht fürs Anschrauben, D fürs Durchstecken).

Bei Durchstecksystemen für Fahrzeuge mit Radschrauben werden längere Radschrauben benötigt. **EXTRA**  
**Mit DTC Gutachten – auch für über 2% Spurverbreiterung und bis zu 40% Leistungssteigerung!**

**Look sportivo e aumento della tenuta di strada!**

Con i distanziali POWERTECH – montati tra il mozzo della ruota e il cerchio – si crea l'impressione di un cerchio più largo. La ruota riempie meglio l'alloggiamento della ruota e la carreggiata del veicolo si allarga.

Quando si utilizzano altri cerchi per compensare l'offset, per avere più spazio (pinze dei freni grandi) o per convertire i bulloni delle ruote in perni delle ruote o viceversa (sistema AZX).

I distanziali ruota sono disponibili in due versioni di montaggio: come sistemi imbullonati o passanti (A sta per imbullonati, D per passanti). Per i sistemi a bullone passante per veicoli con bulloni ruota, sono necessari bulloni ruota più lunghi. **EXTRA**

Con certificato DTC – anche per un allargamento della carreggiata di oltre il 2% e un aumento delle prestazioni fino al 40%!

**Optique sportive et augmentation dynamique de la conduite !**

Avec élargisseurs voie POWERTECH – monté entre moyeu de roue et jante – résulte l'impression d'une jante plus large. La roue remplit le logement de roue et la voie du véhicule s'élargit. En cas d'utilisation d'autres jantes pour compenser le déport, plus de dégagement (grands étriers de frein) ou pour transformer les boulons de roue en goujons de roue ou inversement (système AZX).

Les élargisseurs de voie sont disponibles en deux versions de montage - en tant que systèmes à visser ou systèmes traversants (A pour visser, D pour traverser). Les systèmes traversants pour véhicules équipés de vis de roue nécessitent des vis de roue plus longues. **EXTRA**

Avec expertise DTC - également pour un élargissement de la voie de plus de 2% et une augmentation de la puissance jusqu'à 40% !

**POWERTECH CLASSIC SYSTEMS**

Distanzscheiben in Alu oder Stahl. Einteilig als Systeme A1, A2, D1, D2, D3 oder zweiteilig als System DZ mit zusätzlichem Zentrierring (Stahl). Jeweils für eine Achse.

*Distanziali in alluminio o acciaio. Un pezzo come sistemi A1, A2, D1, D2, D3 o due pezzi come sistema DZ con anello di centraggio aggiuntivo (acciaio). Ciascuno per un asse.*

Rondelles d'écartement en aluminium ou en acier. En une pièce comme système A1, A2, D1, D2, D3 ou en deux pièces comme système DZ avec bague de centrage supplémentaire (acier). Pour un essieu.

**POWERTECH ADAPTER SYSTEMS**

Distanzscheiben in Alu mit Composit Nabenadaptern. Zweiteilig als Systeme AZX, DZX, DZX+ oder DAX. Jeweils für eine Achse.

*Distanziali in alluminio con adattatori per mozzi in composito. Sistemi a due pezzi AZX, DZX, DZX+ o DAX. Ciascuno per un asse.*

Rondelles de distance en aluminium avec adaptateurs de moyeu en composite. En deux parties comme systèmes AZX, DZX, DZX+ ou DAX. Chacun pour un essieu.

**POWERTECH AZX / DZX SPACER DISC ADAPTER**

Patentierter Composite Nabenadapter für die exakte Zentrierung in drei Bauhöhen für alle Scheibenstärken.

*Adattatore per mozzo in composito brevettato per un centraggio preciso in tre altezze per tutti gli spessori di disco.*

Adaptateur de moyeu composite breveté pour un centrage précis en trois hauteurs pour toutes les épaisseurs de disque.

DTC également disponible pour les véhicules déjà transformés!

KW NEWS

ESC MODULES  
FOR VEHICLES WITH ELECTRONIC DAMPING**ESC (Electronical Suspension Cancellation) – Ersatz für das adaptive bzw. elektronische Serienfahrwerk**

Bei Reparaturen (Wechsel der elektronischen Dämpfer) und/oder Wunsch nach zusätzlicher Tieferlegung gibt es verschiedene Optionen. Ein Tieferlegungsersatz mit dem originalen Ersatzteildämpfer führt zu mehr Verschleiss, da das Serienfahrwerk nicht dafür konzipiert ist. Gewindefahrwerke ohne Dämpferregelung führen zu Störungen, da viele Fahrdynamikprogramme die aktive Lenkung, Gaspedalannahme, ESP-Regelung, Abgasklappensteuerung, etc. beeinflussen – und Softwaremodifikationen funktionieren oft nicht auf Dauer (Fehlermeldung bei Service-Zurücksetzung).

Liegt ein adaptives KW DDC plug & play Gewindefahrwerk nicht im Budget oder soll es ein Gewindefahrwerk (egal welche Marke) für Trackdays sein, ist das fahrzeugspezifische KW ESC Modul die Lösung!

Mit der originalen Steckverbindung der Dämpferregelung verbunden simulieren KW Stilllegungsätze den jeweiligen Widerstand.

**ESC (Electronical Suspension Cancellation) – Sostituzione delle sospensioni adattive o elettroniche di serie**

In caso di riparazioni (sostituzione degli ammortizzatori elettronici) e/o di desiderio di un ulteriore abbassamento, esistono diverse opzioni. Un set di molle ribassate con l'ammortizzatore di ricambio originale comporta una maggiore usura, poiché la sospensione standard non è progettata per questo. I coilover senza controllo dell'ammortizzatore portano a malfunzionamenti, poiché molti programmi di dinamica di guida influenzano lo sterzo attivo, la risposta del pedale dell'acceleratore, il controllo dell'ESP, il controllo dei flap di scarico, ecc. e le modifiche del software spesso non funzionano a lungo termine (messaggio di errore al reset del servizio).

Se una sospensione coilover adattiva KW DDC plug & play non rientra nel budget o se si tratta di una sospensione coilover (indipendentemente dalla marca) per i trackday, il modulo ESC KW specifico per il veicolo è la soluzione!

Collegato alla connessione plug-in originale del comando dell'ammortizzatore, il kit di immobilizzazione KW simula la rispettiva resistenza.

**ESC (Electronical Suspension Cancellation) – Remplacement de la suspension adaptative ou électronique de série**

En cas de réparation (remplacement des amortisseurs électroniques) et/ou de souhait d'abaissement supplémentaire, il existe différentes options. Un kit de suspension abaissée avec l'amortisseur de rechange d'origine entraîne une usure plus importante, car le châssis de série n'est pas conçu pour cela. Les suspensions filetées sans régulation des amortisseurs entraînent des dysfonctionnements, car de nombreux programmes de dynamique du véhicule influencent la direction active, la réponse de l'accélérateur, la régulation ESP, la commande du clapet d'échappement, etc. - et les modifications logicielles ne fonctionnent souvent pas à long terme (message d'erreur lors de la réinitialisation du service).

Si une suspension filetée adaptative KW DDC plug & play n'est pas dans votre budget ou si vous souhaitez une suspension filetée (quelle que soit la marque) pour les trackdays, le module ESC KW spécifique au véhicule est la solution!

Relié au connecteur d'origine de la régulation de l'amortisseur, les kits d'immobilisation KW simulent la résistance correspondante.

Bei KW Gewindefahrwerken bereits im Lieferumfang enthalten – inklusive DTC. Già in dotazione con i coilover KW – incluso DTC. Déjà compris dans la livraison des suspensions filetées KW – y compris le DTC.

Das **ap Sportfahrwerk** zeichnet sich aus durch eine sportliche Tieferlegung für eine coole Optik und ein sportlich-dynamisches Dämpfer-Setup. Für ein direktes Ansprechverhalten, sportliches Einlenken, mehr Kontrolle bei Ausweichmanövern und Kurvenfahrten mit ausreichendem Restkomfort. Mehr Fahrperformance und Qualität zum Bestpreis!

- Fahrzeugspezifische Tieferlegung
- Dämpfergehäuse in korrosionsverzinkter Stahllegierung
- Federn und Federbeine pulverbeschichtet, korrosions-/steinschlaggeschützt
- Sportdämpfer mit Dicht- und Staubschutzpaket

**ap Sport Suspension** è contraddistinta per un abbassamento sportivo e per un look intrigante nonché da un allestimento sportivo e dinamico degli ammortizzatori. Per una risposta diretta, uno sterzo sportivo, un maggiore controllo durante le manovre in curva. Maggiori prestazioni di guida e qualità al miglior prezzo!

- Abbassamento specifico del veicolo fino
- Alloggiamento in lega d'acciaio inossidabile zincato
- Molle ed ammortizzatori verniciati a polvere, protetti dalla corrosione e dal terriccio
- Ammortizzatore sportivo con guarnizione e kit di protezione dalla polvere

La **ap Sport Suspension** dispose d'un abaissement sportif pour un look cool et d'une configuration d'amortisseurs sport-dynamique. Pour une réponse directe, une maniabilité sportive, plus de contrôle lors des manœuvres d'évitement ou de virages tout en conservant suffisamment de confort. Plus de performances et de qualité de conduite au meilleur prix !

- Abaissement spécifique au véhicule
- Boîtier du volet en alliage d'acier inoxydable galvanisé
- Ressorts et jambes de force enduits de poudre, protégés contre la corrosion et les éclats de pierre
- Amortisseur sport avec joint d'étanchéité et protection contre la poussière

## ap LOWERING SPRINGS LOWERING - WITH STANDARD DAMPERS

Die Wunschfelgen sind montiert, aber die Radhäuser sind nicht «gefüllt», das Fahrzeug steht «zu hoch»?

Der **ap Sportfedern** Kit verleiht jedem Fahrzeug eine sportlich-dezente Tieferlegung. Für direkteres Handling, mehr Fahrspass und Kontrolle! Seriedämpfer müssen nicht ersetzt werden!

- Fahrzeugspezifische Tieferlegung
- Serienmässige Dämpfer weiterverwendbar bis 40 mm Absenkung
- Hochfeste Chrom-Silizium-Stahl Legierung, pulverbeschichtet, korrosions-/steinschlaggeschützt

Hai montato i cerchi desiderati, i passaruota non sono ancora otticamente «pieni», il veicolo è ancora «troppo alto»?

Il kit **ap molla sport** conferisce ad ogni veicolo un abbassamento sportivo e discreto. Per una guida più diretta, più divertente e con maggior controllo! Gli ammortizzatori standard non devono essere sostituiti!

- Abbassamento specifico del veicolo
- Ammortizzatori standard utilizzabili fino a 40 mm abbassamento
- Lega d'acciaio al silicio al cromo ad alta resistenza, verniciata a polvere, protetto dalla corrosione e dal pietriccio

Les jantes de rêve sont montées, mais les passages de roues ne sont pas «remplis», le véhicule est «trop haut»? Le **ap kit de ressorts sport** donne à chaque véhicule un abaissement sportif et discret. Pour un maniement plus direct, plus de plaisir de conduite et de contrôle ! Les amortisseurs standard n'ont pas besoin d'être remplacés !

- Abaissement spécifique au véhicule
- Amortisseurs standard utilisables jusqu'à 40 mm abaissement
- Alliage d'acier au chrome-silicium de haute résistance, thermolaqués, protection contre la corrosion/les éclats de pierre

Impressive lowered! Available for numerous vehicle models and tuning classics.

\* Lowering over 40 mm without CH approval

**COILOVER  
 SPORT SUSPENSION  
 LOWERING SPRINGS**

ap Sportfahrwerke a brand of KW automotive GmbH

SWISS  CERTIFICATE

**ap COILOVER INDIVIDUAL OR MAXIMUM LOWERING - WITH SPORTY DAMPER SETUP**

Das **ap Gewindefahrwerk** kombiniert eine individuelle sportlich bis extreme Tieferlegung für eine extra coole Optik mit kompromisslosem Fahrspass und ausgezeichnetem Fahrgefühl. Das Fahrwerk-Setup ist ausgelegt für konsequente Sportlichkeit und Sicherheit im Alltag mit ausreichendem Restkomfort. Für maximale Fahrperformance!

- Individuelle Tieferlegung im geprüften Verstellbereich\*
- Gewindefederbeine in korrosionsverzinkter Stahllegierung
- Trapezgewinde für beste Verstellbarkeit des Federtellers
- Hochwertige 2-Rohr Dämpfer mit Dicht-/Staubschutzpaket
- Pulverbeschichtete Federn, korrosions-/steinschlaggeschützt

*Il **ap coilovers** combina un individuale sportivo ad un estremo abbassamento per un look extra cool con un piacere di guida senza compromessi e un'eccellente sensazione di guida. L'assetto delle sospensioni è progettato per una costante sportività e sicurezza nella vita di tutti i giorni con un sufficiente comfort residuo. Massime prestazioni di guida!*

- *Abbassamento individuale nel campo di regolazione testato\**
- *Ammortizzatori e ghiera filettati in lega d'acciaio inossidabile*
- *Filettatura trapezoidale per la migliore regolabilità della piastra della molla*
- *Ammortizzatori a 2 tubi di alta qualità con pacchetto sigillante/polvere di protezione*
- *Molle verniciate a polvere, protette dalla corrosione e dal pietriccio*

Les **combinés filetés ap** combinent un abaissement individuel sportif à extrême pour un look extra cool avec un plaisir de conduite sans compromis et une excellente sensation de conduite. Le setup de la suspension est conçu pour assurer une sportivité et une sécurité constantes au quotidien tout en garantissant un bon confort. Des performances de conduite maximales !

- Abaissement individuel dans la plage de réglage testée\*
- Tiges de ressort filetées en alliage d'acier inoxydable
- Filetage trapézoïdal pour un meilleur réglage de la plaque de ressort
- Amortisseurs à 2 tubes de haute qualité avec joint d'étanchéité / protection contre la poussière
- Ressorts thermolaqués, protégés contre la corrosion et les éclats de pierre

performance  
**autex**  
sport springs

**AUTEX PERFORMANCE SPORT SPRINGS**

**autex performance Federnsätze zur Tieferlegung**

Sportlicher Look und Street Performance.

Für mehr Spurstabilität sowie ein sicheres Kurven- und Bremsverhalten.

Sportlich komfortabel tief oder auch im Keilform-Look!

**Bis 40 mm mit CH-Eignungserklärung.**

- Für Youngtimer, Oldtimer und neue Fahrzeuge
- Tieferlegung bis 40 mm, teils bis 60 mm\* oder keilförmig
- Progressive Federungscharakteristik
- Geringere Fahrzeughöhe = niedrigerer Schwerpunkt
- Reduziertes Eintauchen beim Bremsen, verringerte Karosserie-Rollneigung bei Richtungswechseln
- Geringerer Abstand zwischen Rädern und Karosserie

**Hohe Qualität bei Materialauswahl und Fertigung**

Alle **autex performance** Federn durchlaufen in der Produktion die Stufen eines sorgfältig überwachten Fertigungsprozesses. Von der Materialverfestigung, Oberflächenverdichtung und Blockung über den Finish-Schliff, die Phosphatierung und Epoxidbeschichtung bis zur Qualitäts-Endkontrolle.

**Set di molle autex performance per abbassamento**

Look sportivo e performance di strada.

Per una maggiore stabilità direzionale e sicurezza in curva e comportamento di frenata.

Sportivo e confortevole anche nel look cuneiforme!

**Fornito di omologazione CH.**

- Per Youngtimer, Oldtimer ed auto nuove
- Abbassamento fino a 40 mm, in parte fino a 60 mm\* o a cuneo
- Caratteristiche di sospensione progressiva
- Altezza inferiore del veicolo = baricentro inferiore
- Escursione ridotta in frenata, ridotta inclinazione del rollio della carrozzeria al cambio di direzione
- Distanza ridotta tra le ruote e la carrozzeria

**Alta qualità nella selezione dei materiali e nella produzione**

Durante la produzione, tutte le molle **autex performance** passano attraverso le fasi di un processo produttivo attentamente monitorato. Dal consolidamento del materiale, alla compattazione della superficie e al bloccaggio, alla rettifica finale, alla fosfatizzazione e al rivestimento epossidico, fino al controllo qualità finale.

**autex kits de rabaissement performantes**

Aspect sportif et performance dans la rue.

Pour une plus grande stabilité de la chenille ainsi qu'un comportement sûr dans les virages et au freinage.

Sportif, confortable, profond ou cunéiforme!

**Avec homologation CH.**

- Offre étendue pour Youngtimer, Oldtimer et neufs
- Abaissement jusqu'à 40 mm, parfois jusqu'à 60 mm\* ou en forme de coin
- Caractéristiques de suspension progressives
- Hauteur inférieure du véhicule = centre de gravité plus bas
- Immersion réduite au freinage, réduction du roulis de caisse au changement de direction
- Distance réduite entre les roues et la carrosserie du véhicule

**Material de fabrication et usinage d'haute qualité**

Tous les ressorts **autex performance** passent par les étapes d'un processus de fabrication soigneusement surveillé. Depuis la consolidation du matériau, la compression de la surface et le blocage jusqu'au contrôle final de la qualité, en passant par la rectification de la finition, la phosphatation et le revêtement époxy.

**SWISS RANGE  
 OF PERFORMANCE LOWERING SPRINGS  
 FOR TODAY'S VEHICLES**

SWISS  CERTIFICATE

**H&R lowering springs**

For optimized handling and a sporty look.

**H&R coil springs**

For continuously adjustable lowering with and without standard adaptive dampers or active suspension. Standard dampers including all electronic control functions are retained.

**H&R sports suspensions**

Lowering springs and dampers with a sporty characteristic curve – as a comfort variant for a more dynamic look combined with high ride comfort, or as a sport variant with a wedge-shaped look for maximum driving pleasure.

**H&R coilovers**

Dynamically sporty performance and height-adjustable threads. With vehicle-specific tuned damper set-up or individual damper adjustment through externally adjustable hardness adjustment.

**H&R stabilizer bars**

For reduced body roll. Mostly adjustable on front and rear axle.

**H&R Young & Oldtimer Program**

Large assortment for young and oldtimer - often H-zulassungsfähig.

**H&R racing springs**

Ultra-high-strength special spring steel and low weight reduces unsprung masses. The H&R motorsport program is all about winning! Top teams in motorsports rely on it.

**H&R deactivation modules**

Prevents error messages from the on-board electronics when the suspension is changed. Control unit function is retained. Plug & Play assembly.

**H&R Lifting Springs**

For more ground clearance & easier entry.

# THE RIGHT SUSPENSION FOR EVERY DEMAND

**KW KW SUSPENSIONS** MADE FOR WINNERS

## Für jeden Anspruch das richtige Fahrwerk!

Weltweit vertrauen Partner des Werks- und Kundenmotorsports, Hersteller und Tuner auf KW Fahrwerklösungen. Innovative Entwicklung, das breite Fahrwerk-Portfolio und modernste Fertigungstechnik machen KW zur Nummer 1.

## La sospensione giusta per ogni esigenza!

Riconosciuto partner mondiale per fabbricanti, tuners, piloti e clienti di tutto il mondo, Lo sviluppo innovativo, l'ampio portafoglio di prodotti di sospensioni e la tecnologia di produzione all'avanguardia fanno di KW il numero 1.

## La bonne suspension pour chaque exigence

Dans le monde entier, les partenaires du sport automobile usine, clients, constructeurs et préparateurs font confiance aux suspensions KW. Un développement innovant, un large portefeuille de suspensions et une technique de fabrication ultramoderne font de KW le numéro 1.

For approval in road traffic:

DTC certificate for immobilization kits, support mounts and lowering over 40 mm.

**KW 7-stamp driving dynamics test bench**  
For chassis development and objective tests in the automotive industry and motorsports. Simulation of race track courses and road profiles or frequency runs.

## KW FUNCTION & QUALITY FEATURES

- Individual lowering**  
Continuous individual lowering
- Composite spring plate**  
Stepless, functionally reliable adjustment
- Trapezoidal thread**  
Stepless, functionally safe adjustable
- INOX-Line**  
Corrosion-resistant stainless steel technology
- APP Control**  
Define damper setups individually
- Unibal support bearing**  
For adjustable camber angles (and partly caster)
- Damper**  
SingleTube, TwinTube or TripleTube
- Oil reservoir**  
More oil volume for better cooling performance
- Hydraulic lift**  
Up to 45 mm higher and can be activated up to 80 km/h
- CH certificate / DTC**  
For acceptance/registration in the vehicle registration certificate

## KW TECHNOLOGIES

- Rebound adjustment technology (Lowspeed)**  
Rebound valve (TVR-A & SPRLH-A) with adjustable rebound damping
- Rebound adjustment technology (Highspeed)**  
Rebound valve (SPRLH-A) with adjustable high-speed rebound damping
- Compression damping adjustment technology (Lowspeed)**  
Compression valve (TVC-A & SPCLH-A) with adjustable low-speed compression damping
- Compression Stage Adjustment Technology (Highspeed)**  
Compression valve (TVCLH-A & SPCLH-A) with adjustable high-speed compression damping
- Solid Piston Technology**  
Latest generation TwinTube/TripleTube racing damping technology
- KW SingleTube**  
1-tube damper with two-stage rebound and compression valve. Lower gas pressure, less thermal influence allow higher compression forces.
- KW TwinTube**  
2-tube damper. Working piston with two-stage rebound valve and inner tube with compression valve.
- KW TripleTube**  
3-tube damper. Damper housing, cylinder tube (working section) and intermediate tube with additional valve (electronic or conventional).

## KW TWIN VALVE VALVE TECHNOLOGY

- TVR-A** TVR-A rebound damping  
Twin Valve Rebound Adjustable  
16 clicks
- TVC-A** Compression damping TVC-A  
Twin Valve Compression Adjustable  
12 clicks
- TVCLH-A** Compression damping TVCLH-A  
Twin Valve Compression Low-/Highspeed Adjustable  
16 clicks for high speed + 7 clicks for low speed

## KW SOLID PISTON VALVE TECHNOLOGY

- KW Solid Piston Technology**  
New type of displacement piston in the damper design of the KW suspension V5 and V5/V6 Racing. Even more direct response at the smallest strokes and improved support.
- SPCLH-A** Compression damping KW SPCLH-A  
Solid Piston, Compression Low-/Highspeed Adjustable  
13 clicks each for Low + Highspeed
- SPRLH-A** Rebound damping KW SPRLH-A  
Solid Piston, Rebound Low-/Highspeed Adjustable  
13 clicks each for Low + Highspeed

street comfort

**KW Fahrwerkslösungen für noch mehr Fahrkomfort als in der Serie.**  
Gewindefahrwerke für eine hervorragende Optik, ausgezeichnete Performance und überragenden Komfort. Liftsysteme ermöglichen mehr Bodenfreiheit für Supersportwagen.

**Soluzioni di sospensione KW per un comfort di guida ancora maggiore di quello standard.**  
Coilovers per un look eccezionale, prestazioni eccellenti e comfort superiore. I sistemi di sollevamento permettono una maggiore distanza da terra per le auto supersportive.

**Les solutions de suspension KW pour un confort de conduite encore plus grand que celui de la série.**

# MAXIMUM PERFORMANCE WITH STREET TIRES

## ST COILOVERS XTA PLUS 3

Im ST Gewindefahrwerk XTA plus 3 bieten die 3-fach einstellbaren KW Dämpfer mit separaten Low- und Highspeed Druckstufenventilen weitere Abstimmungsmöglichkeiten.

**Low-speed-Druckstufe (24 Klicks)**  
Beeinflussung der Dämpfung bei langgezogenen Bodenwellen und Justierung des Nickverhaltens des Karosserieaufbaus beim Einlenken, Anbremsen und Anfahren.

**Highspeed-Druckstufe (24 Klicks)**  
Durch Änderung der Vorspannung der Ventillfeder wird Einfluss auf die Dämpfung genommen bei schnellen Anregungen durch die Fahrbahnoberfläche, kurzen Bodenwellen oder Querrillen.

*Nel coilover ST XTA plus 3, gli ammortizzatori KW regolabili a 3 vie con valvole di compressione separate per la bassa e l'alta velocità offrono ulteriori opzioni di regolazione.*

**Stadio di compressione a bassa velocità (24 click)**  
*Influenza lo smorzamento sui dossi lunghi e regola il comportamento del beccheggio della carrozzeria in curva, in frenata e in partenza.*

**Smorzamento in compressione ad alta velocità (24 click)**  
*Modificando il precarico della molla della valvola, lo smorzamento viene influenzato in caso di eccitazione rapida dalla superficie stradale, da brevi urti o da scanalature trasversali.*

Dans le châssis fileté ST XTA plus 3, les amortisseurs KW réglables sur 3 niveaux avec des valves de compression basse et haute vitesse séparées offrent d'autres possibilités de réglage.

**Stade de compression à faible vitesse (24 clics)**  
Influence l'amortissement sur les bosses à long terme et affine le comportement de la carrosserie lors des virages, des freinages et des démarrages.

**Amortissement en compression à grande vitesse (24 clics)**  
En modifiant la précontrainte du ressort de soupape, l'amortissement est influencé en cas d'excitation rapide par la surface de la route, de courtes bosses ou de rainures transversales.

**MILLTEK SPORT**

**MILLTEK SPORT MOST POPULAR PERFORMANCE SPORT EXHAUST SYSTEMS AMONG TUNING COMPANIES**

SWISS  CERTIFICATE

Gegründet 1983 am Hauptsitz in Grossbritannien mit eigenem Entwicklungs-/Testzentrum am Nürburgring, Deutschland bietet **MILLTEK SPORT** heute eine der umfangreichsten Produktpaletten an EG-zugelassenen Hochleistungsauspuffanlagen an, die alle vom TÜV Deutschland geprüft und genehmigt wurden.

Nach Entwicklung und Tests am Nürburgring werden alle Produkte in Grossbritannien gefertigt und in mehr als 90 Ländern weltweit vertrieben.

Vollständig gefertigt in T304L-Edelstahl, der weit weniger anfällig für Abnutzung und Verfärbung ist und eine nahezu unbegrenzte Lebensdauer aufweist.

Cat-Back-Systeme – für diejenigen, die Sound und Ästhetik verbessern möchten – werden als direkter Ersatz für das Originalsystem entwickelt und sind in verschiedenen Konfigurationen erhältlich.

Mit einer ständig wachsenden Auswahl an Performance Auspuffanlagen, die auf den Erfolgen von Schlüsselmarken wie Audi, Volkswagen, Porsche und BMW aufbauen, platziert sich **MILLTEK SPORT** an die Spitze von Tuning-Firmen und Fahrzeugbesitzern, die Wert auf maximale Performance legen.

Mit EG/ECE-Genehmigung / CH-Zulassung.  
 Oder speziell für Motorsporteinsätze.

*Fondata nel 1983 con sede nel Regno Unito e con un proprio centro di sviluppo e collaudo al Nürburgring, in Germania, **MILLTEK SPORT** offre oggi una delle gamme più complete di sistemi di scarico ad alte prestazioni omologati CE, tutti testati e approvati dal TÜV Germania.*

*Dopo lo sviluppo e i test al Nürburgring, tutti i prodotti sono fabbricati nel Regno Unito e distribuiti in oltre 90 paesi in tutto il mondo.*

*Prodotto interamente in acciaio inox T304L, molto meno soggetto a usura e scolorimento e con una durata di vita praticamente illimitata.*

*I sistemi cat-back – per chi desidera migliorare il suono e l'estetica – sono progettati per sostituire direttamente l'impianto originale e sono disponibili in numerose configurazioni.*

*Con una gamma di scarichi ad alte prestazioni in continua espansione, costruita sulla base dei successi di marchi importanti come Audi, Volkswagen, Porsche e BMW, **MILLTEK SPORT** si pone all'avanguardia tra le aziende di tuning e i proprietari di auto che apprezzano le massime prestazioni.*

Con omologazione EC/ECE / omologazione CH.  
 Oppure appositamente per le competizioni.

Fondée en 1983 au siège social en Grande-Bretagne, avec son propre centre de développement et de test au Nürburgring, en Allemagne, **MILLTEK SPORT** propose aujourd'hui l'une des gammes les plus complètes de systèmes d'échappement hautes performances homologués CE, qui ont tous été testés et approuvés par le TÜV allemand.

Après avoir été développés et testés au Nürburgring, tous les produits sont fabriqués au Royaume-Uni et distribués dans plus de 90 pays à travers le monde.

Entièrement fabriqués en acier inoxydable T304L, qui est beaucoup moins sujet à l'usure et à la décoloration et qui a une durée de vie presque illimitée.

Les systèmes cat-back – pour ceux qui souhaitent améliorer le son et l'esthétique – sont conçus pour remplacer directement le système d'origine et sont disponibles en différentes configurations.

Avec une gamme sans cesse croissante de systèmes d'échappement performants, qui s'appuient sur les succès de marques clés comme Audi, Volkswagen, Porsche et BMW, **MILLTEK SPORT** se place en tête des entreprises de tuning et des propriétaires de véhicules qui recherchent une performance maximale.

Avec homologation CE/ECE / CH.  
 Ou spécialement pour une utilisation en sport automobile.
